

CMS Pushes Skilled Nursing Facility Revalidation Deadline to August 1

ARTICLE 05.06.25 ANNA GRISHAM

To maintain Medicare billing privileges, Skilled Nursing Facilities (SNFs) must now do an off-cycle revalidation of their enrollment record with Medicare. This is being done as CMS's effort to collect updated data on ownership, managerial structures, and related parties. Previously, Skilled Nursing Facilities (SNFs) had 90 days for submission and were required to submit Revalidation for Medicare by May 1, 2025. As of Wednesday, April 16th, this submission date has been pushed back to August 1, 2025.

To complete revalidation, SNFs need to assess their ownership and structure to help identify every relevant party. The new guidelines require SNFs to report all members of their governing body, all people with general ownership or interest in the SNF, all individual and organizational owners, and more, no matter their business type.

Facilities are encouraged to use this extra time wisely to avoid delays or issues with reimbursement. As always, it is important to double-check all application details and ensure timely submission to prevent lapses in billing privileges.

Below is the CMS Guidance for SNF attachment on form CMS-855a. This guidance should be read and understood thoroughly to submit accurate revalidation.
