

Dean Dorton Opens Second Cincinnati Office to Support Growth of Economic Hub

ARTICLE 04.01.26 DEAN DORTON

Dean Dorton is pleased to announce the opening of its second Cincinnati office in 2026, emphasizing a clear intention to support one of the Tri-State's booming economic centers.

The firm's new West Chester location officially opened on March 13th, along the I-75 corridor at 9025 Centre Point Dr. The office compliments the firm's recently opened downtown location in the Scripps Center. Together, these offices allow Dean Dorton's expert industry teams—manufacturing and distribution, construction, real estate, healthcare, and more, to integrate seamlessly with the businesses driving our economy.

"These offices are a testament to our investment in the Cincinnati market, and our dedication to meeting clients where they are," said President and CEO, Jason Miller. "We're excited to deepen our connections across the region while continuing to deliver the high-quality, people-first service clients expect from Dean Dorton."

The West Chester location will offer the firm's full suite of services, including accounting, audit, tax, business advisory, technology, and industry-specific expertise. The expansion allows the firm to better support clients across Greater Cincinnati with enhanced accessibility and expanded local teams.

"Cincinnati is our home, and we are proud of the vital economic hub West Chester represents—not only for our region and our country, but on a global scale," said Beth Vice, Cincinnati Market Leader. "This office reinforces our commitment to West Chester's growth as a robust and rapidly growing economic community."

The new offices will also serve as hubs for recruiting and developing top talent in the region, reflecting Dean Dorton's focus on innovation, people-first culture and long-term regional investment.
