Dynamic allocations aren't just for nonprofits anymore. In June's CloudBytes, we're pulling back the curtain on how organizations of all shapes and sizes are reallocating spend across departments with clarity, confidence, and zero spreadsheet chaos!

You'll learn how teams are:

- Reallocating in real time to respond to shifting priorities
- Automating cross-department allocations without manual intervention
- Using allocations to surface hidden cost drivers
- Scaling the module across finance, operations, and program teams
