

Dean Dorton and Avalara Webinar: Coffee, Compliance, and the Cloud

ARTICLE 03.13.19 DEAN DORTON

Coffee and Compliance:

OMG! Sales Tax. Really?

Yes, really.

- More than 10,000 jurisdictions (45 states, the District of Columbia, and a whole bunch of local jurisdictions) impose sales and use taxes
- Because of the numerous jurisdictions and their various laws, sales and use taxes are complicated and create significant financial exposure
- Businesses pay nearly 2 ½ times more in sales and use tax than corporate income tax

What to expect:

In 2018, there were significant changes allowing more states (if not every state) to impose a sales tax collection responsibility on businesses **even if** the business has no office, trucks, or people in the state. In this webinar, we'll talk about the change in the law and what it means for your business. We'll review the changes made by nearly every state to their sales tax law to capture more businesses, and what we can do to help you evaluate your exposure locally, regionally and nationally. Also, we'll show the unique tools available from Avalara to assist you in managing what can be an immense sales tax burden.
