nexonia

Tailored for your business.

Why Nexonia Expenses?

Nexonia Expenses is a simple, highly configurable, cloud-based web and mobile expense report management solution that's tailored to fit your company's unique needs. Flexible approval workflows, deep integration with your existing systems, enhanced visibility, and concierge phone and web support will give you the tools you need to eliminate manual reporting, ensure compliance, and get your T&E spending under control. And with the Nexonia mobile app, you can submit and approve expenses from anywhere, at any time.

Expenses your way.

Credit Card Integration
Daily transaction feeds give you total visibility and control over spending. With integration from over 30,000 banks worldwide, Nexonia offers some of the broadest support available.

Multi-Currency Support
With over 161 currencies to choose from, Nexonia retrieves daily exchange rates in any currency you need. The amount will then be automatically calculated based on the date of your receipt.

Enhanced Mobile Apps
Create, submit, and approve expense reports in seconds using our enhanced iOS, Android, and BlackBerry apps. On a plane? Offline support even allows you to manage your expenses when in flight and submit when you're ready.

Endless Potential
Customization is at the heart of the Nexonia platform. We support custom fields and dimensions, so you can rest assured nothing will slip through the cracks.

Configured to match your policies, not the other way around.

Highly Customizable Approval Flows
Get flexible approval workflows tailored to your company's needs. Nexonia supports nearly unlimited levels of approval routing.

Unparalleled Insight
Say goodbye to cookie-cutter reports. Report on virtually anything with our robust custom reporting engine.

Policy Enforcement
Define your existing expense policies in Nexonia and let our powerful policy engine enforce controls automatically. An on-demand list of existing policies is available to submitters, ensuring they know in advance if an expense is within policy.

Integrated with your existing systems.

Automated Integration
API-based integrations ensure your data is transferred securely and automatically. Nexonia has strong partnerships with industry-leading ERPs, including NetSuite, Sage Intacct, and Intuit QuickBooks.

Integrates with Virtually Anything
As long as it's a system that supports importing and exporting data, we'd love to hear from you. Chances are we've seen it before and are ready to help.

Travel Integrations
Connect Nexonia Expenses with one of our corporate travel partners. Transferred data allows for pre-populated expense reports to ensure timely and correctly submitted reports.

Compliance ready.

Nexonia is highly configurable to meet a variety of compliance requirements, and our excellent support team can assist each step of the way. We even include support for DCAA and Sunshine Act compliance with every account.

GSA Rates Included
Nexonia Expenses come preloaded with up-to-date GSA per diem rates and will calculate tax incurred and tax owed to the government. This means you don't have to spend time updating them, and you can rely on one source of truth for all your travel expenses.

International Tax and VAT Support
As a Canadian company, we have extensive experience with complex tax regulations. Nexonia Expenses effectively supports any tax situation, and we have years of experience supporting our clients with a variety of VAT and tax needs.

We're only a call away.

Custom-Tailored Training Courses
Take advantage of our included training program with a live webinar direct to your team. We'll even provide a recorded copy you can utilize for training down the road.

Unlimited Support
All Nexonia admins have full access to our North America-based support team, available via phone, email, and web conferences.

With You at Every Step
Our trained implementation specialists will help you set up Nexonia with any ERP system based on your company policies.
