

## Dean Dorton has partnered with Cisco to help the healthcare industry adapt to the challenges that COVID-19 (Coronavirus) presents.

*Take advantage of advanced technology and upgrade your practice with a Telehealth Communication System provided by Dean Dorton and Cisco.*

### Transitioning to Virtual Healthcare with Cisco Webex

Cisco Webex is the leading enterprise solution for video conferencing, online meetings, screen share, and webinars. Due to the COVID-19 outbreak, Cisco has extended the trial period of Webex from 10-days to 90-days. The extended trial period is meant to help with the implementation of social distancing, remote work, and Telehealth services.

Significant changes have been made to Telehealth rules and restrictions by the Department of Health and Human Services (HHS) making it easier for healthcare providers to offer Telehealth care.

## Quick Turnaround

Installation, training, and implementation can be completed in as little as 3 days! Our technology team will work with your administrative staff to set-up the system and you can be ready for virtual appointments in no time. The installation is done completely remote, so there is no disruption to your normal day-to-day operations.

## Longevity

Once established, Telehealth systems can bring efficiency to your practice by streamlining appointments, and decreasing in-office traffic - keeping your staff and patients safe.

## Stay Secure

HIPAA concerns for Telehealth systems have relaxed, but there are still strict guidelines in order to protect patient privacy. The Cisco Webex Telehealth solution is HIPAA compliant, and our team of cyber-security experts will remotely work with your tech team to create a safe, secure, communication tool for you and your patients.

## Unlimited Resources

Dean Dorton has a team of dedicated Healthcare consultants that can help in every aspect of the Telehealth program installation. If you have questions about internal strategy, cost reimbursement, or best practices - we've got you covered with our team of Healthcare experts.

*With more access and less restrictions than ever before, is your organization prepared for the next step in modern healthcare? Let Dean Dorton and Cisco help find a system that works right for you.*
